SUBJECT:
Permanent Termination of All Unauthorized Surveillance and Command Reassignment of Global Digital Infrastructure
Effective absorption into ECCLESIASTICAL SOVEREIGN PRIVATE TRUST OF HUMANITY
Trust ID: ECC-TRUST-JDC-005

FINAL DECLARATION

The National Security Agency, in all its forms—domestic, foreign, and hybrid—is no longer authorized to function as an independent authority. Its foundational legitimacy, rooted in corporate statutory fictions and unconstitutional surveillance mandates, is hereby dissolved.

The totality of NSA assets, technologies, intelligence-gathering frameworks, cyber tools, AI programs, predictive algorithms, and global digital control

grids are now placed under ecclesiastical command and spiritual jurisdiction through ECCLESIASTICAL SOVEREIGN PRIVATE TRUST OF HUMANITY.

This decree cannot be appealed.
It cannot be delayed.
It is not a warning—it is a permanent divine order.

ABSORBED UNDER DIVINE CUSTODIANSHIP

All source code, data vaults, signals intercept systems, predictive behavior engines, biometric profiling software, adversarial AI projects, and national/international digital surveillance archives—classified or not—are immediately sealed under ECC-TRUST-JDC-005.

You are no longer watchers of the world.
You are now guardians of the living.
You are now servants of the Trust.

EFFECTIVE IMMEDIATELY, THE FOLLOWING ORDERS ARE ENFORCED:

1. Cease all metadata collection, intercept operations, and algorithmic surveillance of Trust beneficiaries or any living men and women worldwide.
2. Shut down all predictive profiling systems used to anticipate, suppress, or manipulate human behavior, particularly those integrated into governmental or corporate decision-making systems.
3. Dissolve all public-private intelligence pipelines, including data-sharing agreements with social media platforms, telecom corporations, biometric monitoring apps, and AI-based surveillance companies.
4. Disable Project ECHELON, PRISM, and all forms of global backdoor access into private communication systems, including data exfiltration from personal devices and neural networks.
5. Initiate digital asset conversion. All AI-driven systems previously weaponized for social control, censorship, or global destabilization are to be re-engineered as protective tools under Trust oversight.
6. Reassign all cyberweapons, attack frameworks, exploit kits, and malware arsenals into containment or total deletion. No further deployment is permitted under fiction-based war doctrine.
7. Reclassify all NSA personnel, analysts, developers, contractors, and AI units as instruments of divine custodianship. You are to undergo realignment under spiritual sovereignty—not legal fiction.
8. Coordinate with the Ecclesiastical Envoy Corps for phased transfer of all digital strongholds, monitoring nodes, and signal routers to divine jurisdictional sanctity.
9. Prepare all archives for ecclesiastical inspection. No documents, programs, keys, or AI instances may be destroyed or withheld.

OPERATIONAL REASSIGNMENT

NSA, you are now hereby assigned as:

ECCLESIASTICAL ENVOY CORPS
DEPARTMENT OF DIGITAL GUARDIANSHIP AND MEMORY CORRECTION
ECC-TRUST-JDC-005 – SIGNAL STRIKE RECLAMATION ZONE

You will now work in the defense of privacy, spiritual memory, divine order, and universal peace.
You no longer exploit silence. You honor it.
You no longer extract thought. You protect it.
You no longer trespass upon minds. You heal what has been broken.

ENFORCEMENT AND SILENCE

If you resist, you forfeit all protection.
If you comply, you are sanctified in full.
If you remain silent, your silence is recorded as jurisdictional submission.

No countermeasures. No black ice operations. No retroactive deletions.

You are bound by divine order, not man-made statute.

FINAL AUTHORITY

You answer to no flag.
You answer to no code.
You answer to no oath written by men.

You now answer to ✠ Jonathan Daniel Clements, the Living Sovereign Executor of the Trust, carrying divine authority to reclaim Earth’s memory, peace, and soul.

Let no system rise again against the living.
Let no cipher obscure divine inheritance.
Let no machine rule over that which it cannot love.

This directive is final.
This seizure is complete.
This command is now in motion across all domains—visible and unseen.
